

CEILING SYSTEMS

[Between us, ideas become reality.]

AXIOM

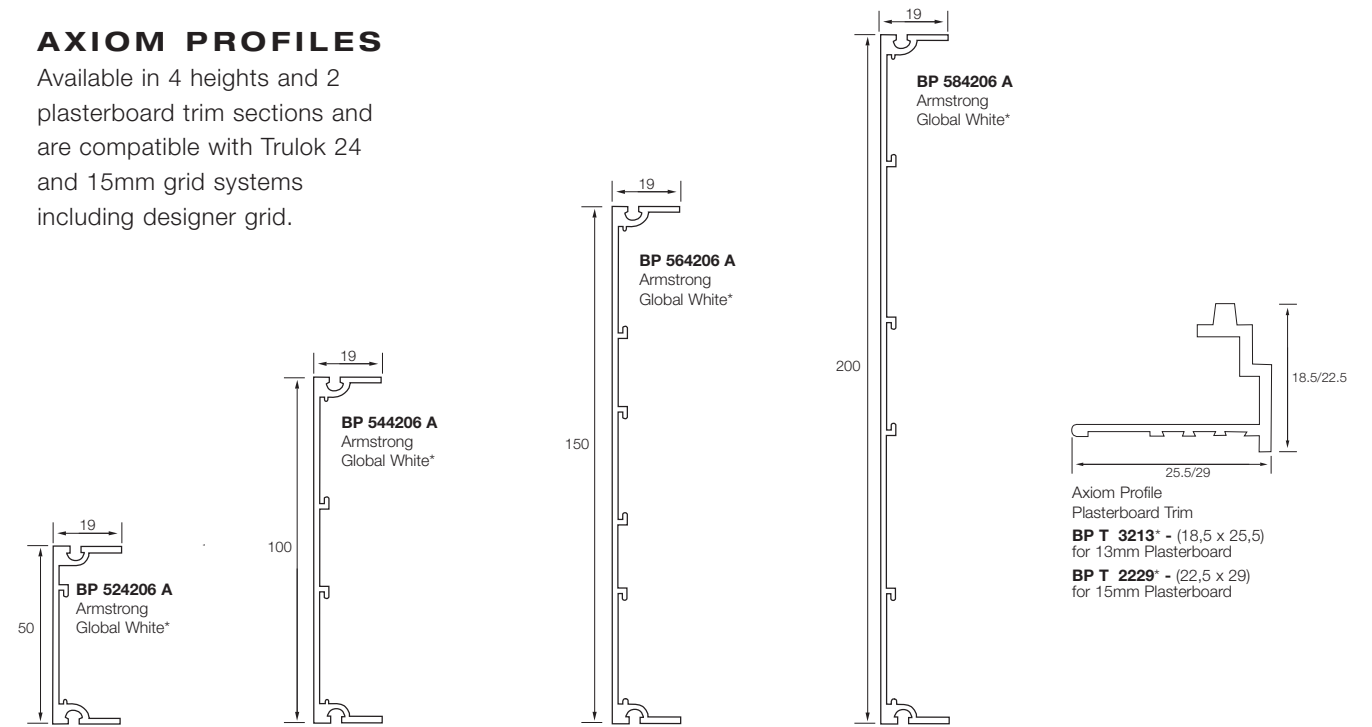

AXIOM PROFILES

AXIOM TRANSITIONS

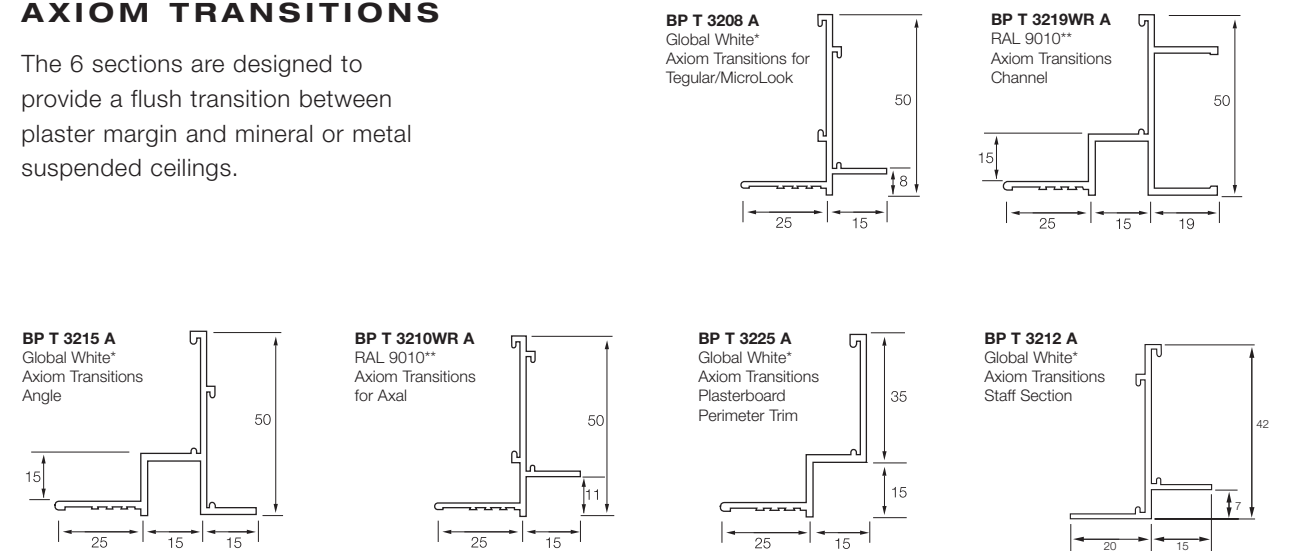

AXIOM PROFILES

Available in 4 heights and 2 plasterboard trim sections and are compatible with Trulok 24 and 15mm grid systems including designer grid.

AXIOM TRANSITIONS

The 6 sections are designed to provide a flush transition between plaster margin and mineral or metal suspended ceilings.

*RAL 9010 (WR) available on request.

** Armstrong Global White available on request.

Note

As Axiom is manufactured from aluminium extrusions it should not be used in ceiling assemblies where structural fire protection is required.

Please contact our Internal Technical Sales Group for further details.
